

HUDSON

MACHINE & TOOL

MILLING

At Hudson Machine & Tool, we maintain a large number of advanced CNC milling machines that enable us to handle a wide range of projects. Our diverse selection of machines, coupled with the expertise of our skilled machinists, ensures that we can tackle various milling requirements.

OUR SERVICES

Our facilities include both horizontal and vertical milling centers, allowing us to choose the most suitable machine for your specific project needs. Most of our milling centers are equipped with a 4th axis, providing enhanced versatility and enabling us to perform complex milling operations.

Our milling centers have the capacity to work on pieces up to 14 feet in length, accommodating a broad range of sizes and requirements. We have extensive experience working with a wide range of materials, ensuring that we can handle diverse milling projects.
