

HUDSON

MACHINE & TOOL

INSPECTION

At Hudson Machine & Tool, we offer comprehensive inspection services using a programmable Coordinate Measuring Machine (CMM) capable of achieving tolerances as precise as $\pm .0002''$. Our team of skilled inspectors is trained to identify and address any discrepancies in machine parts, providing detailed reports on their findings.

OUR SERVICES

Our core expertise extends beyond machining to include coordination of mag particle inspection and collaboration with certified vendors. We understand the critical importance of precision and accuracy in the manufacturing industry, and we are dedicated to providing exceptional inspection services that meet or exceed industry standards.

Whether you require inspection for a single part or a full production run, our team is committed to delivering the highest level of quality and accuracy. For those needing certification, we collaborate with trusted third-party experts who specialize in certification processes, ensuring that your components meet all necessary standards
